Course Pre-Requisites / Co-Requisites

Students must be in their final semester of coursework.

Course Objectives

The objectives of this course are to: 1) enhance graduate students' understanding of the current state of knowledge regarding the fields of microbiology and cell science; and 2) provide a framework in which students can synthesize that knowledge into a literature review that will be used as the student's programmatic final assessment.

Course Schedule

Week 1 & 2: Decide on topic for literature review and begin to accumulate references. Complete tutorials on science writing and plagiarism.

Week 3: Complete science writing and plagiarism learning module quiz.

Week 4 & 5: Complete outline of proposed review paper and include list of references.

Attendance Policy, Class Expectations, and Make-Up Policy

As this course is online and asynchronous there is no required attendance. As this paper will be used as final assessment for the MS program and the graduate school requires the documents to be submitted at certain times throughout the academic year, therefore there is little flexibility for the final paper submission dates. However, if you have an excused absence for missing earlier tutorials or deadlines for the draft review paper, we can revise as needed. Excused absences must be consistent with university policies in the [Graduate Catalog](#) and require appropriate documentation. Additional information can be found in [Attendance Policies](#).
